Rising Like Dough: A 100% Community-Driven Meme Coin

Abstract

BreadCTO is a community-driven meme coin created from the ashes of a rugged project. Fueled by the dedication of its original investors, BreadCTO combines creativity, transparency, and collective energy to redefine what it means to be a successful meme coin. Our mission is to build long-term value through collaboration, innovation, and an engaged community.

Introduction

The Origin Story

BreadCTO began as a grassroots response to adversity. When the original Bread project was rugged, 12 core members of the community came together with a shared vision: to revive the project and create something bigger and better. BreadCTO is the result of that determination—a decentralized project driven by the passion of its community.

Vision

BreadCTO aims to:

1. Build a thriving, engaged community.
2. Create transparency and trust in all operations.
3. Leverage creativity and collaboration to become a standout meme coin.
4. Deliver long-term value and innovation in the meme coin space.
5. Support charitable initiatives by donating to a charity chosen by the community, funded by the treasury wallet, with details to be announced at a later stage.
